

PASSWORD MANAGER RESCUE KIT

Your secret code is used to sign in on new devices. It is unique to you and it is very important that you store it safely as we cannot recover it for you. Keep this document somewhere safe to ensure you always have access to your Password Manager credentials.

INSTRUCTIONS

1. Print this document.
2. Record your email address and master password in the boxes below.
3. Store the document somewhere secure and accessible to you, like a safe or vault.

Please contact support with any questions.

EMAIL ADDRESS

Use the box below to record the email you used to set up the password manager.

MASTER PASSWORD

Use the box below to record the master password you set up within the password manager.
